

CCNA – THEORY & PRACTICAL QUESTION PAPER

Syllabus: Day 1–5 PPT Topics, up to Static Routing

Duration 1 Hour 30 Minutes

Total Marks 40

Theory 25 Marks

Practical 15 Marks

PART A – THEORY (25 MARKS)

Section A – Very Short Answer (5 × 1 = 5 Marks)

1. What is a router and at which OSI layer does it primarily operate?
2. What is the purpose of a routing table?
3. What is the prompt for Privileged EXEC mode?
4. What is the standard TCP port number used by SSH?
5. What is static routing?

Section B – Short Answer (4 × 3 = 12 Marks)

1. Explain the functions of a router.
2. Differentiate between User EXEC mode, Privileged EXEC mode, and Global Configuration mode.
3. Explain the purpose of CPU, RAM, ROM, Flash, and NVRAM in a Cisco router.
4. Differentiate between Telnet and SSH.

Section C – Descriptive Answer (2 × 4 = 8 Marks)

1. Explain the router booting process from POST to the router becoming operational.
2. Explain static routing, routing-table entries, longest-prefix match, and the difference between next-hop and exit-interface static routes.

PART B – PRACTICAL (15 MARKS)

Practical– Configure and Verify Static Routing (15 Marks)
